UPCOMING ROADWORK ON DENNISON ROAD AND RIVER ROAD

CHIP SEALING

Starting this week these roads will be prepared for chip sealing to begin on Monday, August 15th from 7:00 a.m. – 4:00 p.m. A speed limit of 15 mph will be posted.

We anticipate both roads to be completed the same day work begins. The roads will then be swept once the stone sets which should be completed by Friday, August 19th. Until the roads are swept, the loose stone can cause significant problems for riders, runners and walkers. Loose stone tends to get tossed in the air by driving too quickly and can create dust, limit visibility and do damage to vehicles, bicycles, and pedestrians. So please continue to adhere to the 15 mph speed limit until the signs are removed.

ROADWORK SCHEDULED FOR END OF AUGUST

MILLING AND REPAVING

Bittersweet Lane
Book Hill Road
Hemlock Drive
Mares Hill Road
Primrose Ledge

These roads will be milled and repaved the end of August through early September. More information will follow in the next couple of weeks.

Thank you for patience and cooperation.

Dave Caroline, Director of Public Works
